

*Look Who Lives in the Desert!*

**Animals Around-the-Clock**

Color the desert animals on the attached page and then carefully cut them out. Paste each animal in the box below that represents the period it is *most* active: daytime, dusk/dawn, nighttime. At the bottom of each box, list several other animals that you have seen or heard, which are also active at that time. Discuss reasons why certain animals are active at certain times.

**DIURNAL**  
active during the day

Name some other diurnal animals:

---

---

---

**CREPUSCULAR**  
active during dusk and dawn

Name some other crepuscular animals:

---

---

---

**NOCTURNAL**  
active at night

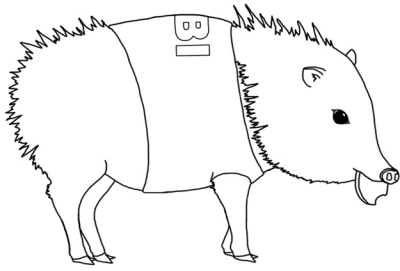

Name some other nocturnal animals:

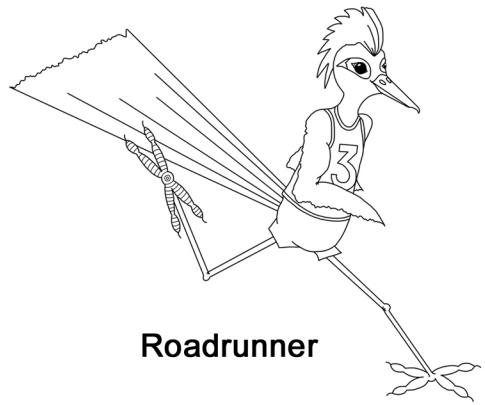

---

---

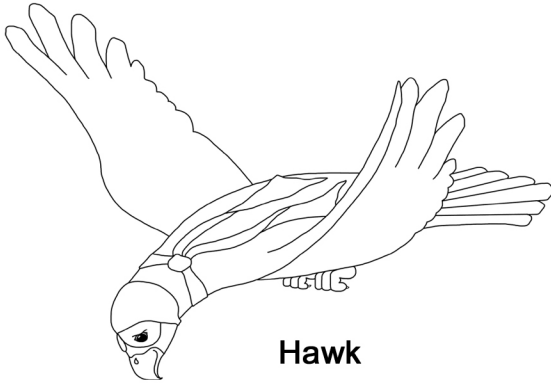

---

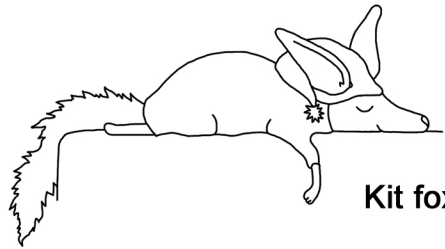

**Javelina**

**Roadrunner**

**Hawk**

**Kit fox**

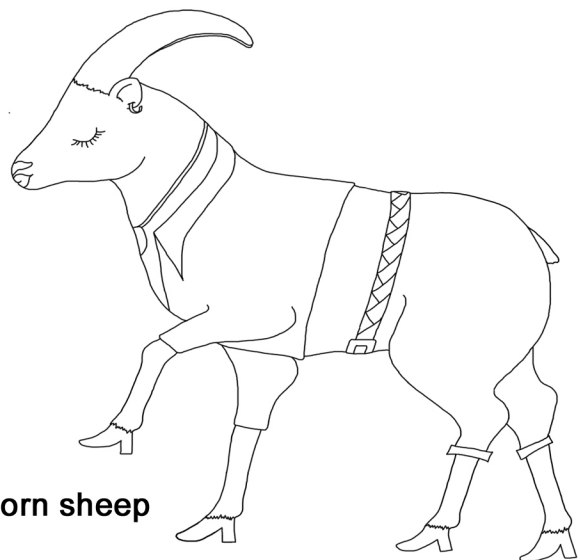

**Kangaroo rat**

**Bat**

**Owl**

**Bighorn sheep**

**HINT:** There are 3 diurnal animals, 2 crepuscular animals and 3 nocturnal animals.
